

DMEPOS Competitive Bidding Program
Bid Preparation Worksheet – Round 2021
Estimated Capacity & Bid Amount Calculations

Commode Chairs	3
Continuous Positive Airway Pressure (CPAP) Devices and Respiratory Assist Devices (RADs)	6
Enteral Nutrition	9
Hospital Beds	14
Nebulizers	19
Negative Pressure Wound Therapy (NPWT) Pumps	22
Non-Invasive Ventilators	25
Off-The-Shelf (OTS) Back Braces	30
OTS Knee Braces	44
Oxygen and Oxygen Equipment	49
Patient Lifts and Seat Lifts	54
Standard Manual Wheelchairs	59
Standard Power Mobility Devices	62
Support Surfaces (Groups 1 and 2)	67
Transcutaneous Electrical Nerve Stimulation (TENS) Devices	70
Walkers	73

Bid Preparation Worksheet

Round 2021

This worksheet is provided to assist you with determining your bid amount and estimated capacity for the lead item in the product category. This information must be entered in the Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS) Bidding System, DBidS, on Form B for your bid(s) to be reviewed and considered. Your estimated capacity is the number of lead item units that you believe you can furnish in the competitive bidding area (CBA) in one calendar year (CY). For information on the non-lead items in the [product category](#), please view the product categories on the Competitive Bidding Implementation Contractor (CBIC) website.

All lead item bid amounts must be bona fide (rational and feasible for you to furnish at your bid amount). It is important for you to consider and include your costs to buy the lead item and non-lead items, overhead, and profit when determining your bid amount for the lead item. The Centers for Medicare & Medicaid Services (CMS) will evaluate bid amounts to verify that they are bona fide and may ask you to submit additional information, including rationale and invoices or other documents, to substantiate your lead item bid amount. Save a copy of your completed bid preparation worksheet to use if CMS requests documentation to support your bid amount. Please review the [Request for Bids \(RFB\) Instructions](#) and fact sheets for assistance with completing your bid sheet (Form B). Refer to the [Lead Item Pricing Calculator](#) to determine the impact of your bid amount for the lead item on the non-lead items in the product category.

General Notes

The bidding units defined in this worksheet are for bidding purposes ONLY. Please carefully review the definition of a lead item bidding unit for each Healthcare Common Procedure Coding System (HCPCS) code and make sure you submit your bid amount in DBidS correctly. In some cases, bidders are required to submit purchase bid amounts that are then used to generate monthly rental payments. Do NOT submit a rental bid amount when the definition of the bidding unit is for the purchase of a new item. The definition of a bidding unit (purchase or rental) is not necessarily an indication that this is how payment will be made for the item under the DMEPOS Competitive Bidding Program.

For the oxygen and oxygen equipment product category, all contract suppliers must furnish specific modalities of oxygen (concentrator, liquid, or gaseous) when prescribed by the physician. Therefore, each contract supplier must make all three modalities available to Medicare beneficiaries as prescribed by the physician. You must calculate your capacity for oxygen and oxygen equipment based on one (1) month's rental, not purchase, of the equipment. For example, if you currently furnish 100 units of oxygen each month, that would equate to a total of 1,200 oxygen units furnished on a yearly basis. If you anticipate increasing the number of oxygen units provided each month by 100 during the first year of the contract, the estimated yearly capacity would be 2,400 rental oxygen units.

Items that are currently paid on a monthly rental basis will continue to be paid on a monthly rental basis under the DMEPOS Competitive Bidding Program.

How Purchase Bid Amounts Will Be Converted to Rental Payments

* Capped Rental Durable Medical Equipment (DME) except power wheelchairs - the single payment amount (SPA) for rental months 1 - 3 is based on 10 percent of the purchase bid amount, and the SPA for rental months 4 - 13 is based on 7.5 percent of the purchase bid amount.

* Capped Rental Power Wheelchairs - the single payment amount (SPA) for rental months 1 - 3 is based on 15 percent of the purchase bid amount, and the SPA for rental months 4 - 13 is based on 6 percent of the purchase bid amount.

* Inexpensive or Routinely Purchased (IRP) DME - the SPA for each rental month is based on 10 percent of the purchase of bid amount.

Column Name	Column Description
CBA State	State where CBA is located
CBA Name	CBA name
Lead Item HCPCS Code	The item in a product category with multiple items with the highest total nationwide Medicare allowed charges of any item in the product category prior to each competition.
Lead Item HCPCS Code Description	Long HCPCS code description
Definition of a Bidding Unit	Purchase or Rental
Two-year Average of 2017 and 2018 Allowed Units	The two-year average of the number of allowed units for the CBA and HCPCS code paid by Medicare in CY 2017 and 2018
Two-year Average of 2014 and 2015 Allowed Units*	The two-year average of the number of allowed units for the CBA and HCPCS code paid by Medicare in CY 2014 and 2015
Percent Increase	Used to project demand for an item within a CBA; this increase factor takes into account yearly increases in both fee-for-service beneficiary enrollment and allowed units per beneficiary
2021 Projected Demand	Projected first year demand for Round 2021 is calculated by increasing the two-year average of 2017 and 2018 allowed units by the percent increase in the CBA
Bid Limit	The highest amount that may be bid for a lead item, which is the unadjusted fee schedule amount for the state in which the CBA is located
Your Bid Amount	Your bid amount to provide one lead item unit as described in the definition of a bidding unit, should consider overhead, profit, and its impact to the non-lead items
Your Estimated Capacity	Number of lead item units you can furnish in the CBA in one CY

*The significant increase of allowed units for the off-the-shelf (OTS) back brace lead item from 2015 through 2018 is a data anomaly which CMS believes is attributed to fraud, waste, and abuse. To avoid unreliable data, CMS is using the two-year average of 2014-2015 allowed units as a proxy, instead of 2017-2018, for the purpose of projecting beneficiary demand for OTS back braces.

Product Category: Off-The-Shelf Back Braces

Lead Item HCPCS Code: L0650 Lumbar-Sacral Orthosis, Sagittal-Coronal Control, With Rigid Anterior And Posterior Frame/Panel(S), Posterior Extends From Sacrococcygeal Junction To T-9 Vertebra, Lateral Strength Provided By Rigid Lateral Frame/Panel(S), Produces Intracavitary Pressure To Reduce Load On Intervertebral Discs, Includes Straps, Closures, May Include Padding, Shoulder Straps, Pendulous Abdomen Design, Prefabricated, Off-The-Shelf

*The significant increase of allowed units for the off-the-shelf (OTS) back brace lead item from 2015 through 2018 is a data anomaly which CMS believes is attributed to fraud, waste, and abuse. To avoid unreliable data, CMS is using the two-year average of 2014-2015 allowed units as a proxy, instead of 2017-2018, for the purpose of projecting beneficiary demand for OTS back braces.
